VOCALOID™5

Read Me First

Thank you very much for purchasing VOCALOID5.

- **Things to check before installing:**
  - Serial number

    The serial number is described in the email sent when you downloaded and purchased the software.
  - Internet environment

    You must be connected to the Internet for authorization of the package.

- **Notes:**
  - User Licensing
    - This product can only be used by customers who have agreed to the End User License Agreement.
    - Please be sure to read and agree the License Agreement before installing this product.
  - Operating Environment
    - The operating environment for this product is described on the official website of the product, so be sure to review it before use.
    - Please note that we cannot guarantee proper operation if used in any other operating environment. Also, even when used in the operating environment described, it may not be possible to use it due to differences, such as the design specifications and/or usage environments peculiar to various other software and hardware in the environment.
    - Not all operations are guaranteed to work, even in an environment that meets the described conditions.
    - Please be advised that we cannot accept any returns due to problems arising from the environment etc. Please be aware of this fact.
  - Support
    - Direct inquiries about this product to our dedicated support center.
    - Yamaha Products VOCALOID Customer Center (https://www.vocaloid.com/en/support/)
  - Manual
    - This manual provides a guide to the installation, authorization and deauthorization procedures.
    - For the detailed manual for VOCALOID5, launch VOCALOID5 Editor and go to “Help” → “Reference Manual”.

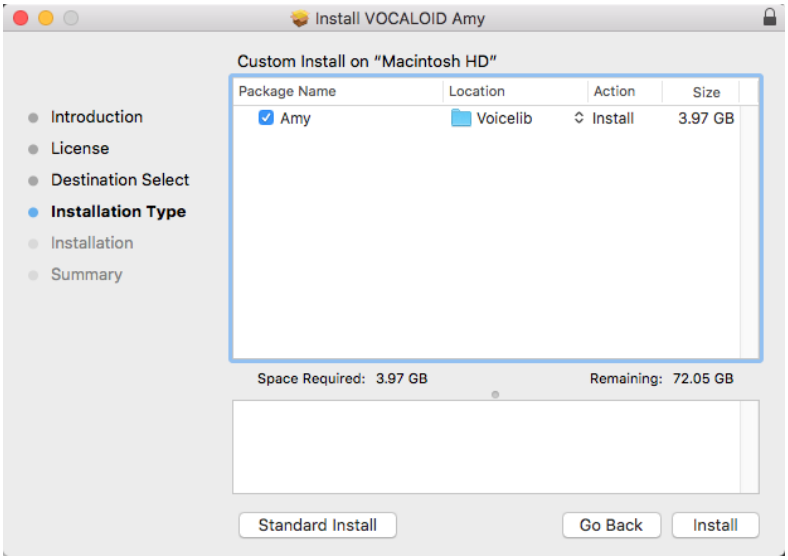
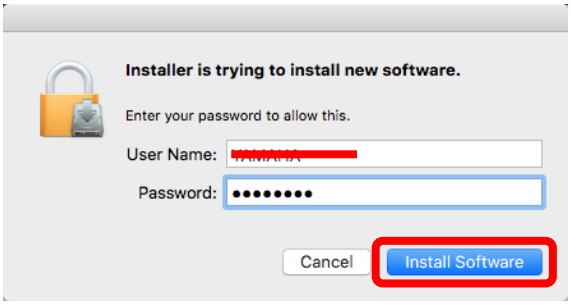
Install

To display customization options:

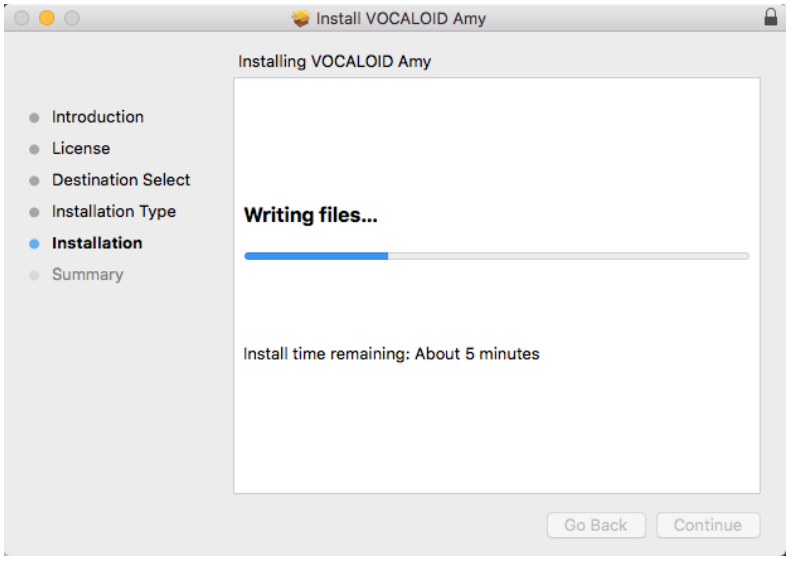
You can customize what gets installed. Click “Customize” on the left and then choose what to install.



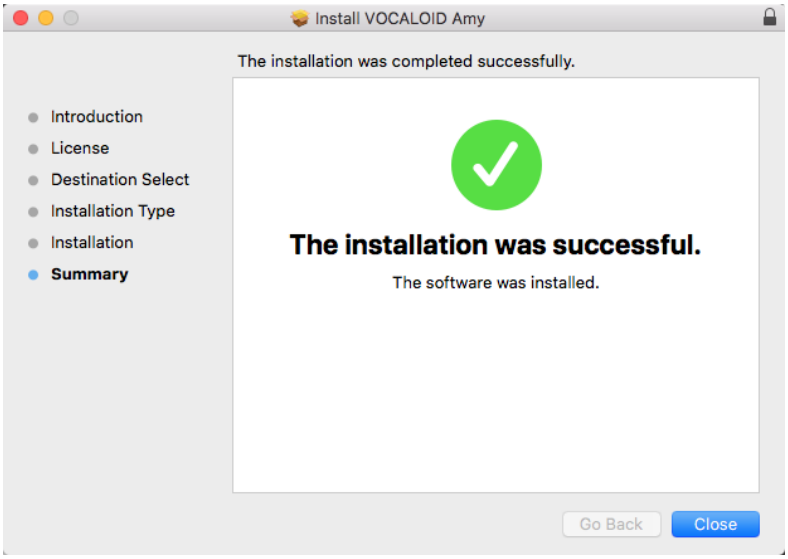
7. Enter a user name and password, then click “Install Software”.



The installation begins.



The following window opens when installation has finished.



With that, installation is complete. Repeat the procedures above until installation of all the files is complete.

Authorization

Authorization

In order to use VOCALOID5, it is necessary after installing the files to authorize the package by accessing the VOCALOID authorization server over the Internet. Although VOCALOID5 can be used for a period of time without activating it, once that period expires, it cannot be used anymore. Be sure to authorize the software to enjoy continuing to use it.

Notes about Authorization

Your computer must be connected to the Internet to perform authorization.

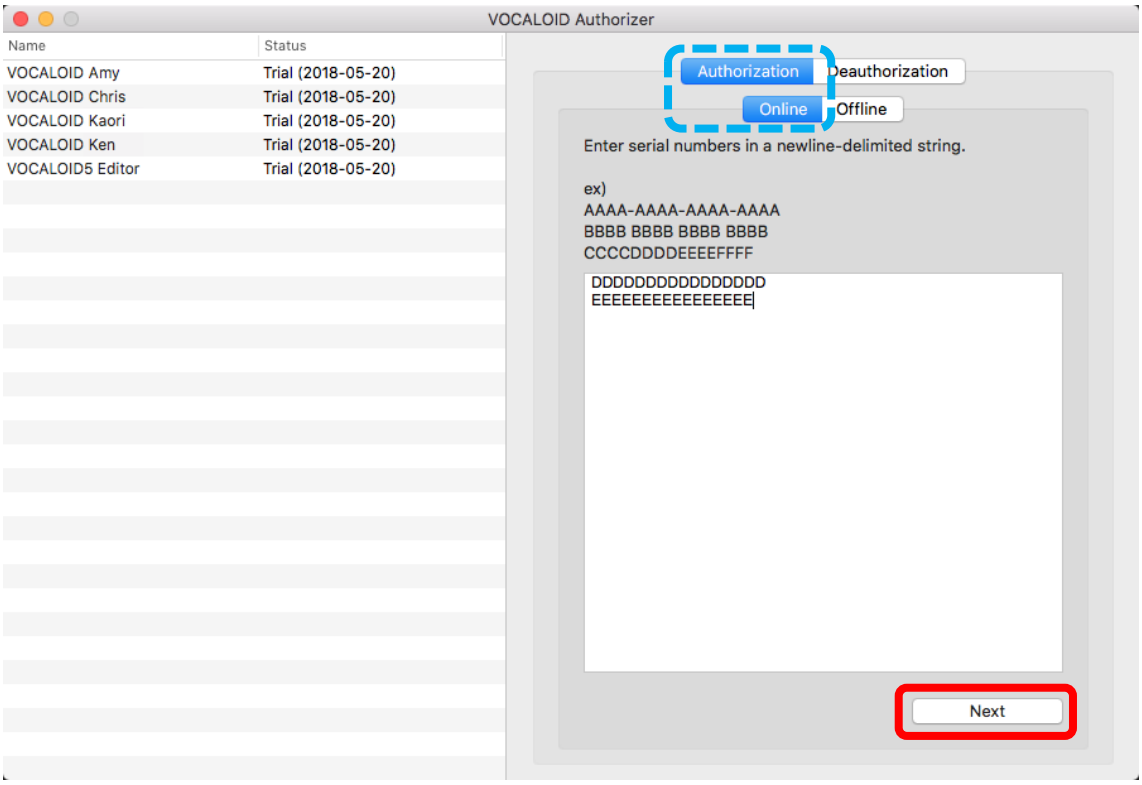
If the computer VOCALOID5 is installed on is connected to the Internet:	If the computer VOCALOID5 is installed on is NOT connected to the Internet:
You can go through authorization as-is on the computer on which VOCALOID5 was installed. For details, refer to the online authorization procedures below.	Use a different computer, which is connected to the Internet, to go through authorization. Launch VOCALOID Authorizer, and make sure it is on the tabs “Authorization” → “Offline”. Follow the displayed operating procedure to perform “Offline Authorization Procedure”.

Online Authorization Procedure

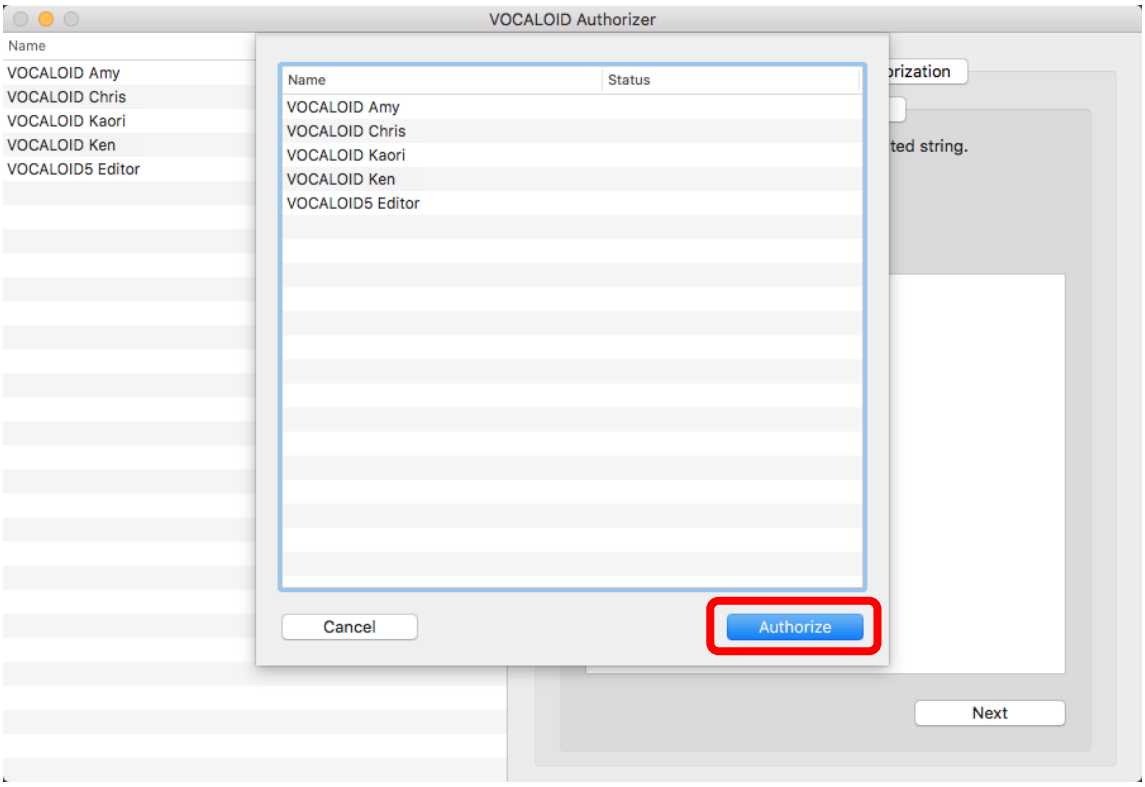
1. **Launch VOCALOID Authorizer.**

2. **Make sure it is on the tabs “Authorization” → “Online”.**

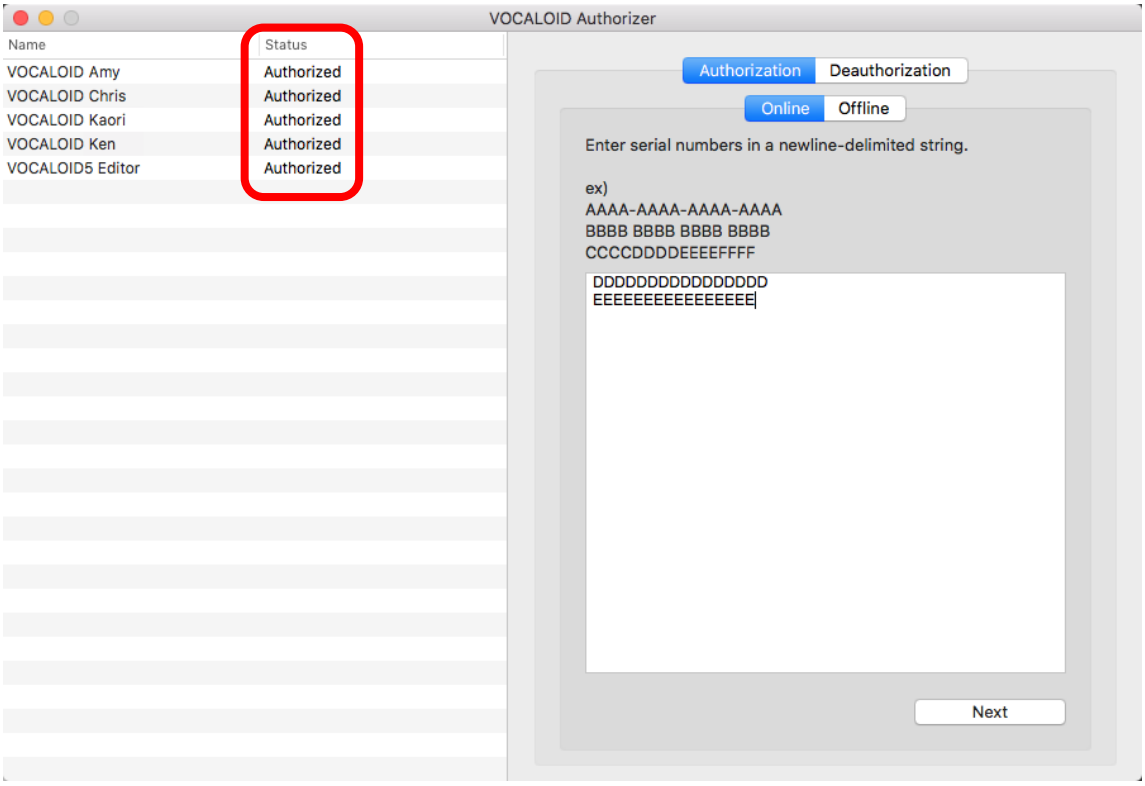
3. **Enter the serial number and click “Next”. A number of serial numbers can be authorized at one time by entering them as shown below.**



4. **Check the names of components to be authorized and click “Authorize.”**



5. **Check and make sure the status of the components is “Authorized.”**



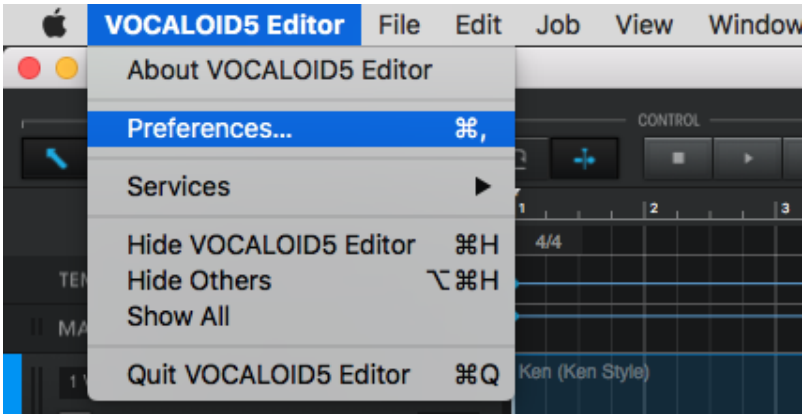
This completes the online authorization procedure. Close VOCALOID5 Authorizer.

Audio Device Settings

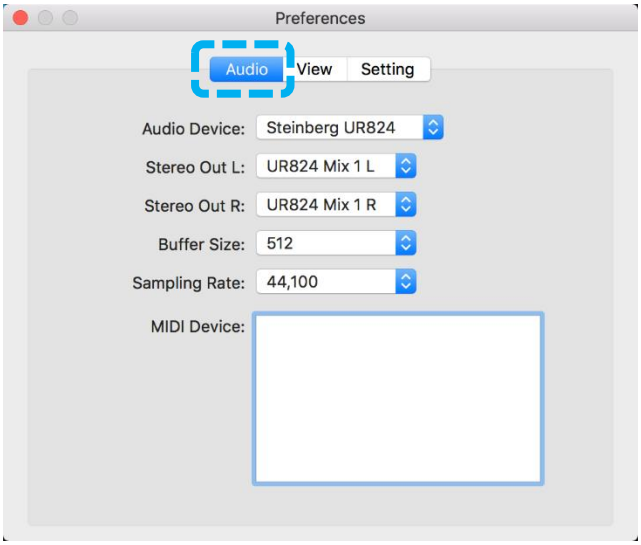
1. **Launch VOCALOID5 Editor.**

2. **From the menus, select “VOCALOID5 Editor” → “Preferences...”**

   This opens the Preferences screen.



3. **Configure the settings on the Audio tab for the Audio Device and Stereo Out L & R parameters applicable to your device.**



This completes the audio device settings. Please enjoy the VOCALOID world.

Deauthorization (Restoring Authorization Data)

Be sure to deauthorize VOCALOID5 prior to uninstalling it.

If you uninstall it without first deactivating it, when you install VOCALOID5 on a new computer, you will not be able to authorize it.

Notes about Deauthorization

Your computer must be connected to the Internet to perform deauthorization.

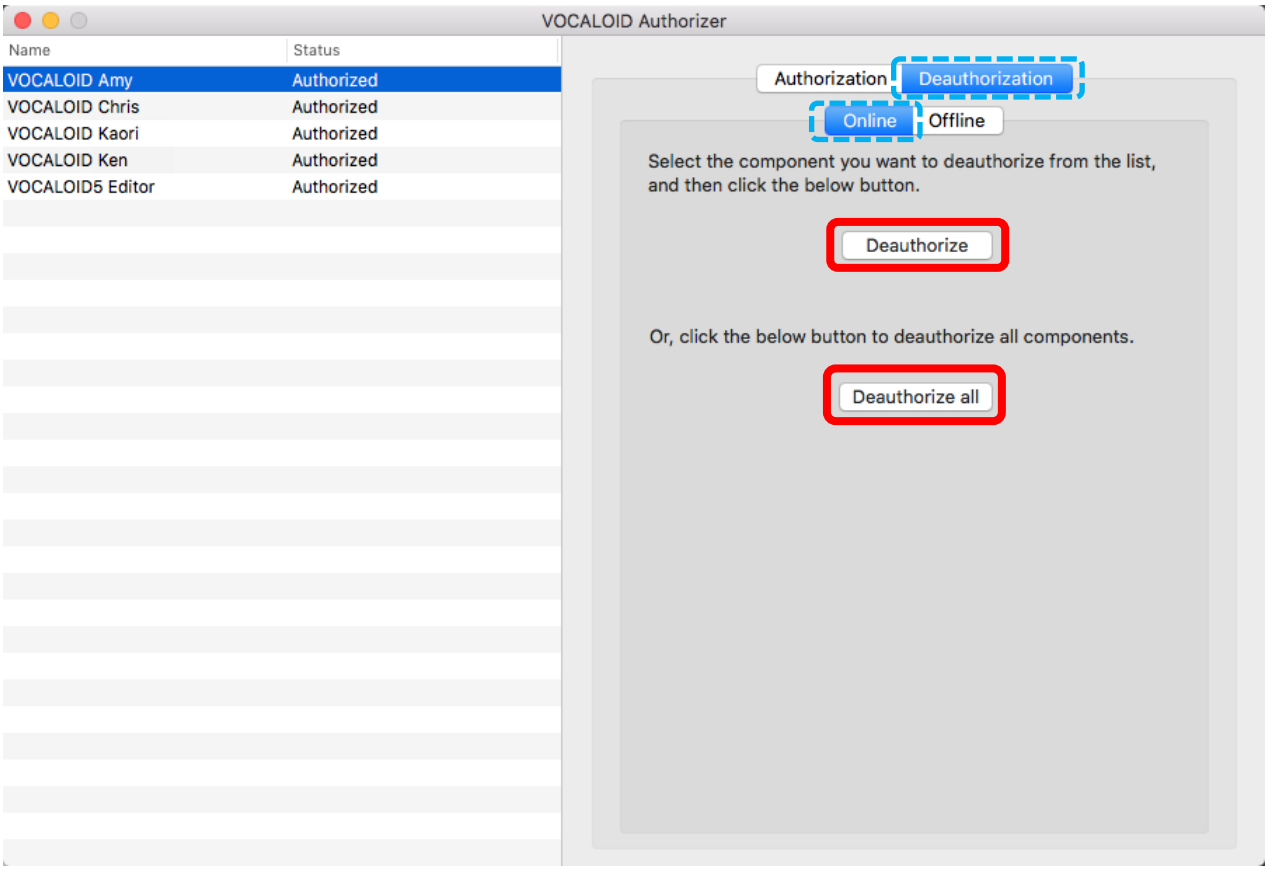
If the computer VOCALOID5 is installed on is connected to the Internet:	If the computer VOCALOID5 is installed on is NOT connected to the Internet:
You can go through deauthorization as-is on the computer on which VOCALOID5 was installed. For details, refer to the online deauthorization procedures below.	Use a different computer, which is connected to the Internet, to go through deauthorization. Launch VOCALOID Authorizer, and make sure it is on the tabs “Deauthorization” → “Offline”. Follow the displayed operating procedure to perform “Offline Deauthorization Procedure”.

Online Deauthorization Procedure

1. **Launch VOCALOID Authorizer.**

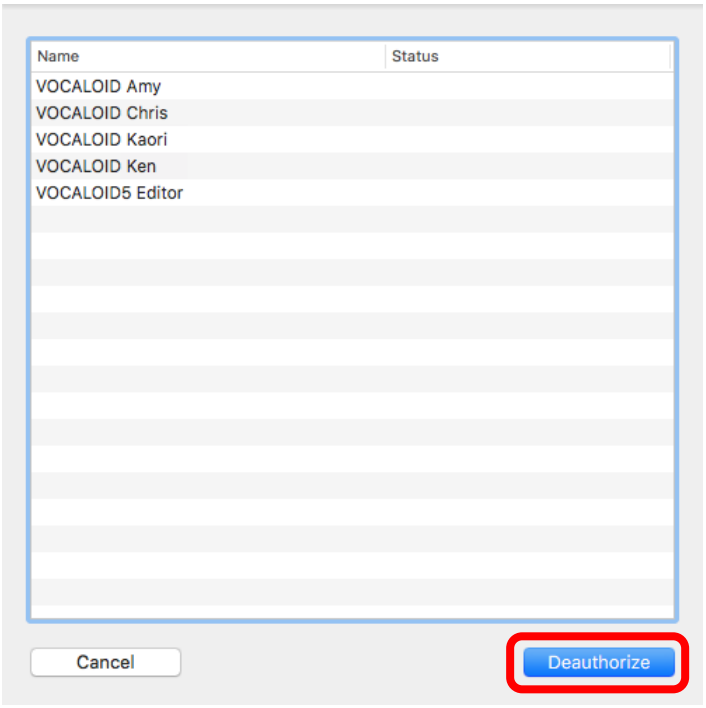
2. **Make sure it is on the tabs “Deauthorization” → “Online”.**

3. **Select the components you wish to deauthorize and then click “Deauthorize.”**

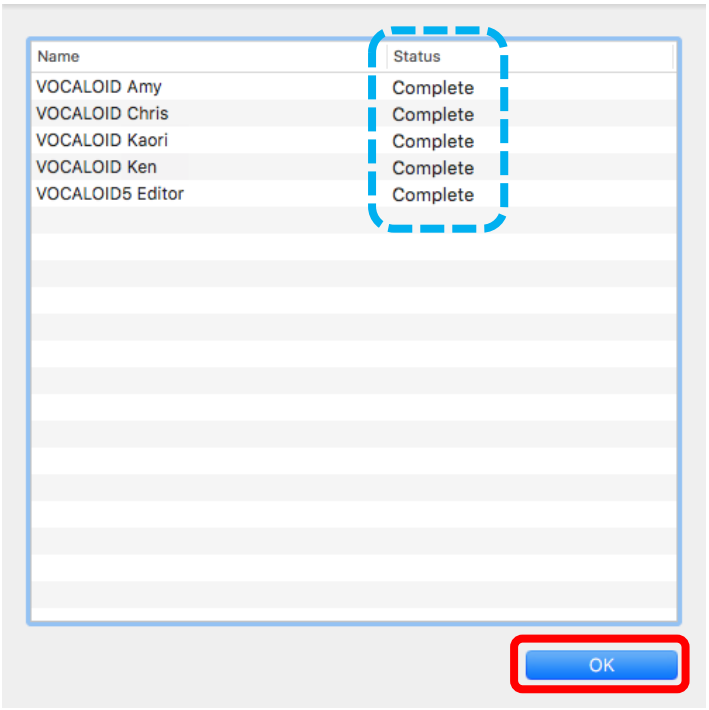


If you wish to deauthorize all components, click “Deauthorize all.”

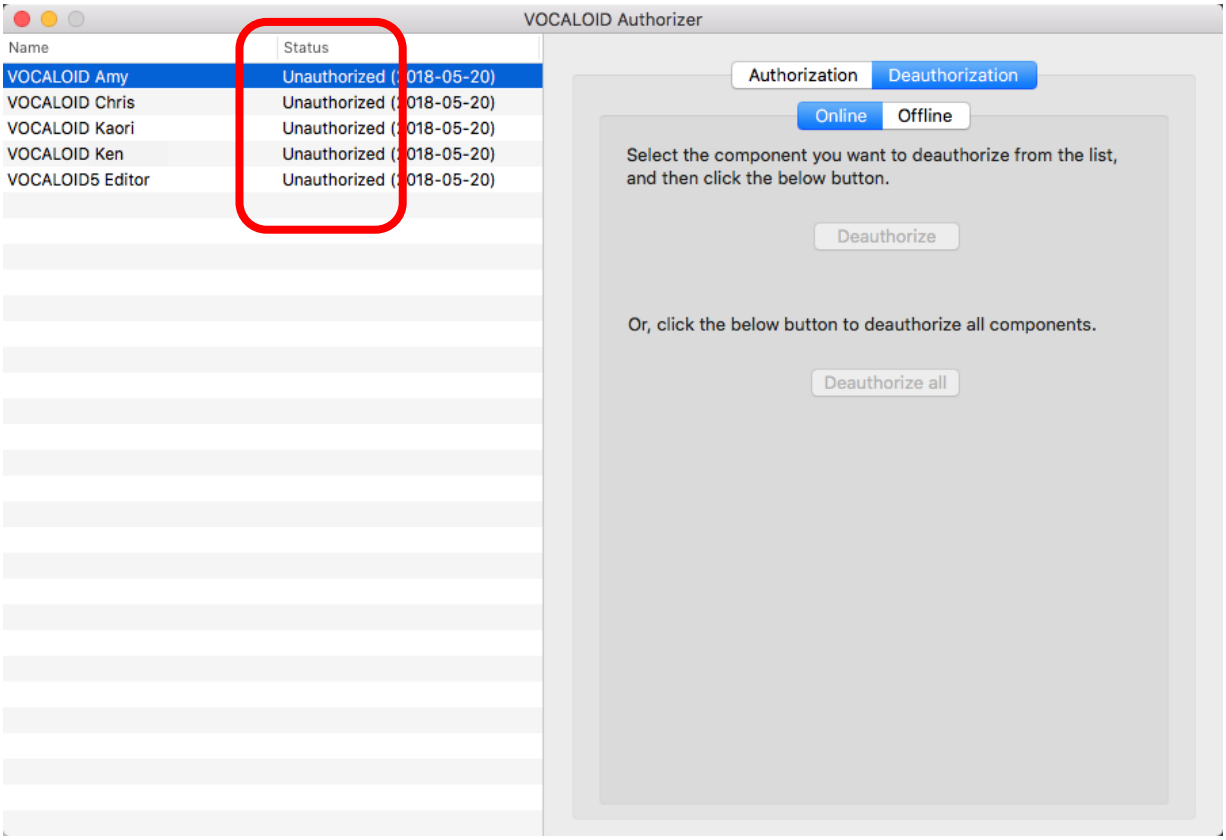
4. **Check the content in the list and click “Deauthorize.”**



5. **Check and make sure the status in the list is “Complete,” and then click “OK”.**



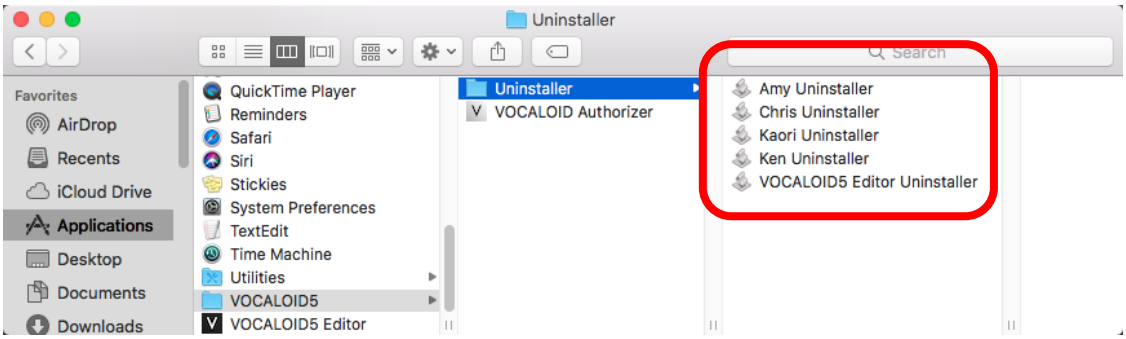
6. **Check and make sure the status of the components is “Unauthorized.”**



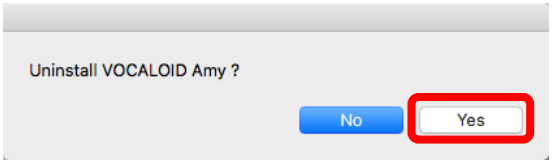
This completes the online deauthorization procedure. Close VOCALOID5 Authorizer.

Uninstallation

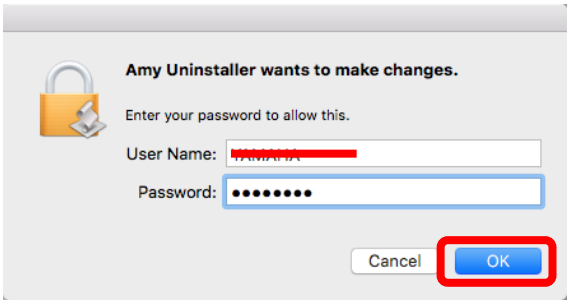
1. **The uninstaller for components like the VOCALOID5 Editor and Voicebank is inside the following folder under “Applications”.**



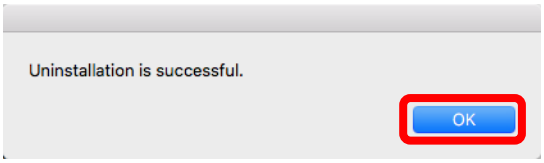
2. **Launch the uninstaller, and click “Yes”**



3. **Enter a user name and password, then click “OK”.**



4. **Click “OK”.**



With that, uninstallation is complete.
